

RESIDENTIAL ALARM RESPONSE & PATROL SERVICES

What have you got to lose?®

INTRODUCING SUSPICIOUS ACTIVITY RESPONSE

Due to customer requests, Bay Alarm is now offering Suspicious Activity Response.

Since suspicious activity is not categorized as an emergency or crime, law enforcement may not be available to provide a timely response.

Call in your non-emergency, suspicious activity concern to Bay Alarm, and we will send an agent to address it.

* Available to patrol groups, HOAs, and areas with active Bay Alarm Patrol only, at no additional charge.

Add this new service to any of our response and patrol services.

ALARM RESPONSE

Should your burglar alarm activate, our Central Monitoring Station will dispatch the police in addition to our Alarm Response Agents. Our Agents will be familiar with your neighborhood, respond immediately to the emergency situation and assist the police.

RANDOM PATROL

Bay Alarm's Response Agents will conduct random patrols near your home, increasing the awareness of our presence and helping deter criminal activity in your community. Agents will also respond to any alarm activations.

VACATION WATCH

Vacation Watch allows our customers to leave their home for an extended period of time without worrying. While you're on vacation, our Agents will provide daily newspaper and mail pick-up. They will also perform a residence check to ensure your home is safe.

SAFETY ESCORT SERVICE

There may be times when you feel more comfortable seeing a Bay Alarm Response Agent in front of your home when you arrive. If you come home late after work or just want to exercise precaution, our Response Agent will meet you and see that you enter your home safely.

*This service is based upon agent availability.
